

WAN200 Optimization Essentials

Course Overview

This 5-day solution-focused class offers an introduction to the Riverbed® Optimization System (RiOS®) with hands-on installation and configuration experience using the Steelhead™ Appliance and deployment integration with the Central Management Console, Steelhead™ Mobile. This class also provides an introduction to the Interceptor® and Granite™ edge virtual server infrastructure solutions.

This course is specifically designed for Riverbed® customers and resellers/partners involved in the design or deployment of the Riverbed Steelhead™ product family. For students who only need to perform day-to-day operational support and reporting, we recommend Riverbed® University OnDemand Training.

Course Topics

Course Availability

Classroom Training

50 Training Credits

Classroom Training is available to any Riverbed® customer or partner and include lectures by a Riverbed® Certified Solution Instructor and access to the Riverbed® University eLab for hands-on experience. Each class is priced per student attendee. We recommend dedicated classroom training for 8 or more students.

Online Classroom Training

50 Training Credits

Online Classroom Training is taught remotely using Adobe® Connect™. Each online classroom training session includes real-time lectures with a Riverbed® Certified Solution Instructor and remote-access to the Riverbed® University eLab. Each class is priced per student attendee with a maximum of 16 students.

Dedicated Classroom Training

Dedicated Classroom Training is available exclusively for one customer at a customer-designated facility. Each class includes lectures by a Riverbed® Solution Instructor and remote-access to the Riverbed® University eLab. Each class is priced per event and is ideally suited for 8 students to 14 students.
